TO: Honourable Margaret Birch Provincial Secretary for Social Development

We, the members of the Interministerial Working Group on Group Homes: Location and Distribution established by Cabinet Committee on March 30, 1978, to develop and make recommendations concerning definition of "group homes", municipal by-laws, licensing and standards, and to collect and analyze information on the present distribution of homes by size, type and location, do respectfully submit our report.

Summary of Recommendations

#### INTERMINISTERIAL WORKING GROUP ON GROUP HOMES REPORT

#### INTRODUCTION

For many years, agencies and organizations concerned with the care, supervision, or treatment of persons from all age groups, have attempted to provide for these needs outside of the more traditional institutional settings which were prevalent throughout Canada, and, indeed, North America. Orphanages, homes for the aged, long-term psychiatric institutions, mental retardation facilities and chronic care facilities for the physically handicapped have been, and are, under continuing pressure to give way wherever possible to a more homelike atmosphere and family style environment.

In Ontario, this concept has been adopted by the Government and is being promoted in the context of community life, community service, and normalization.

Group home care in a family-like atmosphere is not a new idea. While this Committee has not attempted to trace the growth in a formal way, we are aware of references to group homes back to the turn of the century.

A number of Ministries of the Provincial Government have a direct interest in the development of this type of accommodation for humanitarian, for therapeutic, and economic reasons. This provides additional impetus to the Government to work with restrictive communities and municipalities and add to the efforts of private agencies working in this area for a number of years. The Cabinet Committee on Social Development, in creating this sub-committee, has responded to the desires of the municipalities to have guidance for the orderly development of such homelike care, in a family atmosphere; but with the least possible disruption to the communities concerned.

This report addresses itself to concerns raised by the Cabinet Committee as stated in the Terms of Reference dated March 30, 1978.

#### TERMS OF REFERENCE

The Terms of Reference of the Cabinet Committee on Social Development for the Interministerial Working Group are as follows:

Because of the complexities of the interministerial issues to be resolved, THE COMMITTEE RECOMMENDS TO CABINET

- 1. A SHORT-TERM INTERMINISTERIAL WORKING GROUP BE ESTABLISHED WITH THE FOLLOWING TERMS OF REFERENCE:
  - TO DEVELOP AND MAKE RECOMMENDATIONS ON COMPATIBLE LICENSING REQUIREMENTS AND/OR PROCEDURES FOR ADMINISTERING FACILITIES WHICH MAY BE TERMED "GROUP HOMES" INCLUDING MAXIMUM STANDARDS FOR DENSITY: CENTRAL REGISTRATION: AND MINIMUM LEVEL OF RELATED SUPPORT SERVICES WHICH MUST BE AVAILABLE PRIOR TO LICENSING AND/OR APPROVAL.

AS PART OF THIS TASK, THE WORKING GROUP WOULD BE EXPECTED TO:

- DEFINE "GROUP HOME" OR TYPE OF "GROUP HOME", e.g., ADULT, CHILD
- FXAMINE EXISTING AND PROPOSED MUNICIPAL BY-LAWS (e.g., CITY OF TORONTO, BOROUGH OF ETOBICOKE)
- AT AN EARLY DATE, PROVIDE TO THE PROVINCIAL SECRETARY FOR SOCIAL DEVELOPMENT A DRAFT RESPONSE TO THE REPORT OF THE CITY OF TORONTO WORKING COMMITTEE ON GROUP HOMES
- COLLECT AND ANALYZE DETAILED INFORMATION ON THE PRESENT DISTRIBUTION OF HOMES BY SIZE, TYPE AND LOCATION
- (b) TO EXAMINE AND MAKE RECOMMENDATIONS CONCERNING VARIOUS APPROACHES IDENTIFIED TO ENCOURAGE OR REQUIRE MUNICIPALITIES TO AMEND RESTRICTIVE ZONING BY-LAWS
- (c) TO CONSIDER AND MAKE RECOMMENDATIONS CONCERNING A COMMUNICATIONS PROGRAM TO ALLAY GENERAL OR SPECIFIC PUBLIC CONCERNS OVER "GROUP HOMES"
- (d) TO FIND AN ALTERNATIVE TERM FOR "GROUP HOME"
- (e) TO SUBMIT RECOMMENDATIONS FOR CONSIDERATION BY THE CABINET COMMITTEE ON SOCIAL DEVELOPMENT
- 2. THE MINISTRIES REPRESENTED ON THE WORKING GROUP BE AS FOLLOWS:

  COMMUNITY AND SOCIAL SERVICES

HEALTH
CORRECTIONAL SERVICES
EDUCATION
HOUSING
TREASURY, ECONOMICS & INTERGOVERNMENTAL AFFAIRS
SECRETARIAT FOR SOCIAL DEVELOPMENT

AT AN EARLY DATE, THE WORKING GROUP WOULD BE EXPECTED TO OUTLINE THE SUPPORT RESOURCES IT MIGHT REQUIRE AND ITS PROPOSED WORK PLAN

- 3. THE MINISTRY OF COMMUNITY AND SOCIAL SERVICES ACT AS LEAD MINISTRY TO CO-ORDINATE THE ACTIVITIES OF THE WORKING GROUP DUE TO ITS PRINCIPAL INVOLVEMENT IN "GROUP HOMES"
- 4. THE COMMITTEE REPORT TO THE CABINET COMMITTEE ON SOCIAL DEVELOPMENT BY JUNE 1, 1978.

#### BACKGROUND

Social Development Policy Field, on March 30, 1978, reviewed the Cabinet submission entitled "The Location and Distribution of Group Homes in Ontario". This Cabinet submission outlined the problem, the background to Group Home Programs, recent developments, and future options for Provincial involvement.

The problem as stated was:

- the Provincial Government has embarked on a program of deinstitutionalization wherever possible, to provide care in a community setting.
- effectiveness is dependent on provision of community based programs including group homes.
- at present, the Province is dependent on the goodwill of municipalities to accept group homes.
- the Province is being pressured to take two conflicting courses of action:
  - (a) some agencies are pressing for Provincial legislation to ensure that municipalities will accept group homes; Toronto is pressing for Provincial action in support of its city-wide policy of acceptance of group homes
  - (b) some municipalities, Boards of Education, etc., are pressuring the Province to support restrictive zoning by-laws

Social Policy Field adopted the recommendation that a short-term interministerial working group be established and provided the above terms of reference.

It was made quite clear in that Cabinet submission that the central issue is co-operation with municipalities. While the introduction of new legislation detailing Provincial/Municipal responsibility and revisions to the Planning Act could require municipalities to provide for group homes; it was agreed that this course of action would be unsuccessful in meeting the objectives of normalization and community care. In order to be effective in the long term, and adequately meet the objectives of all group home programs, municipalities must be convinced that group homes are a responsibility of the municipality and an asset to the provision of service in their municipality. The Province is dependent upon the municipalities working with residents of that municipality to convince them of the importance of having group homes in their community.

It is in this spirit of Provincial-Municipal co-operation and collaboration that the report has been prepared. The material which follows deals with the terms of reference, categorically and separately, but not necessarily in the order in which the terms of reference were established by the committee.

#### DEFINITION OF GROUP HOMES

One of the tasks assigned by the Cabinet Committee on Social Development to the Working Group was to recommend a definition of a "group home". Although the Provincial Government sponsors these facilities, and although there is mention of them in Provincial Statutes, there is no generally accepted definition. It was recognized that, if group homes are to gain acceptance by the public at large and particularly by municipal councils, it is essential to make it very clear just what is meant by a "group home".

After examining a number of definitions used by Provincial Ministries and individual municipalities and some suggested in Provincial reports and in the literature, the Working Group agreed on the following definition:

A group home is a single housekeeping unit in a residential dwelling in which three to ten unrelated residents\* live as a family under responsible supervision consistent with the requirements of its residents. The home is licensed or approved under Provincial Statute in compliance with municipal by-laws.

\*"Residents" excludes staff or receiving family.

This definition is based on the assumption that the most important characteristic of a group home is its similarity to a family situation. All of the qualifying phrases emanate from this assumption. For example, ten residents was determined to be the maximum that could be included to retain the similarity to a family. A home with more than ten residents is a small institution and should probably not be accommodated in a single family residential neighbourhood, but rather in an area zoned to permit lodging houses or institutional uses.

In arriving at this definition, the Working Group rejected certain elements that appeared in some of the definitions examined. For example, all references to "treatment program" "rehabilitation", or "transition to living independently in the community" were eliminated on the grounds that a group home is a living arrangement. The one thing that all group home residents have in common is the need for a residential situation to replace a family home. The fact that some residents are being treated or rehabilitated is not relevant for the purpose of the definition. Other qualifications that the Working Group rejected were "professional supervision" and "24 hour supervision". It would be difficult to determine what was "professional" supervision and what was not and whether "24 hour supervision" included that of a sleeping resident staff. In addition, some residents might not require 24 hour supervision. It was decided that it would be preferable to refer to "responsible supervision consistent with the needs of residents". This, along with the requirement of Provincial approval, should assure the public that such supervision as is necessary would be provided.

#### RECOMMENDATION:

THAT THE DEFINITION OF A GROUP HOME BE:

A GROUP HOME IS A SINGLE HOUSEKEEPING UNIT IN A RESIDENTIAL DWELLING IN WHICH THREE TO TEN UNRELATED RESIDENTS\* LIVE AS A FAMILY UNDER RESPONSIBLE SUPERVISION, CONSISTENT WITH THE REQUIREMENTS OF ITS RESIDENTS. THE HOME IS LICENSED OR APPROVED UNDER PROVINCIAL STATUTE IN COMPLIANCE WITH MUNICIPAL BY-LAWS.

\*"RESIDENTS" EXCLUDES STAFF OR RECEIVING FAMILY.

#### NAME FOR THIS TYPE OF CARE

The committee developed a list of twenty possible alternative terms to substitute for the term "Group Homes".

Numerous staff such as program managers, directors, people connected with the various programs, as well as executive assistants and secretaries were requested to give their views on a change of name from Group Homes. The response, as indicated below, indicated three names were more highly regarded than any others and the committee, following a discussion of the implications, came to the conclusion that the term "Group Homes" was still the most appropriate term.

It was considered that with media acceptance of the term as well as the principle of the programs, there were more positive than negative aspects to the present term. The two possible alternatives did not have the impact at this time that "Group Homes" has and it was not considered that this situation could be changed other than over a long period of time, by which time the negative aspects would probably be transferred to the new name. The preference in descending order for the first seven names were as follows:-

Community Residences	28
Group Residences	26
Group Homes	22
Residential Care Facilities	13
Special Care Residences	12
Group Residential Services	11
Family Homes	11

#### RECOMMENDATION:

THAT THE TERM GROUP HOME BE USED IN CONJUNCTION WITH THE NEW DEFINITION.

#### DISTRIBUTION OF HOMES BY LOCATION -SIZE-TYPE

#### Current Status

As part of its terms of reference, the Working Group was asked to collect and analyze detailed information on the present distribution of group homes by size, type and location. We understand the purpose of this data collection to be twofold:

- (1) to ascertain the present distribution of group homes which, due to restrictive zoning by-laws in some municipalities, has meant excessive concentration in others;
- (2) to provide a basis for a central registry of group homes, which would consolidate the data and information of 14 provincially licensed or approved group home programs which have, to date, operated in virtual isolation from one another.

Accordingly, the most recent available information under each of the 14 different programs has now been collected and consolidated by the Working Group into a single package. The Children's Services Division has been working for several months to develop a comprehensive information system for all children's residential care facilities. To the best of our knowledge, the inventory which has been developed by the Working Group represents a first consolidation of all group home programs for adults and children.

In each municipality, city, town, village, township or unincorporated community, the data is presented in tabular form by Act, name, and address of each operator under each program. It further distinguishes, where appropriate, between adult and child residents. Finally, the actual size of home or number of residents is specified within a range of size categories from 3-7, 8-12, and 13-20.

For purposes of obtaining a visual perspective on the concentration of group homes throughout the province, all information contained in the tables is also presented on provincial maps which are available, but not contained in the report.

It should be noted that the distribution was compiled and analyzed before the group home definition of 3 to 10 beds was decided upon. Accordingly, references to group homes in this section refer to homes of 3 to 20 beds.

The following general observations have been made as a result of analysis of the information contained in Appendix and Table.

(1) There are 821 residential care facilities in Ontario with 3-20 beds, ∈xcluding homes operated by the Children's Aid Sccieties under the Child Welfare Act. Of the 821 facilities, 301 or 37% are located in 18 municipalities with a population of 90,000 or more. The largest number of facilities are found in the City of Toronto, Hamilton and Ottawa. There is no precise count of C.A.S. homes or beds available. (2) Table shows the number of beds per thousand (bed ratio) for the 18 cities and boroughs which have a population of 90,000 or more. These cities comprise some 51.8% of the provincial population.

The 18 cities and boroughs have a bed ratio of .30 per thousand homes of 3-10 beds, compared to a provincial average of .43. This would indicate that group homes are less prevalent in large urban centres than in smaller urban centres or rural areas.

For homes of 3--20 beds the cities and boroughs have a bed ratio of .64, compared to a provincial average of .84 which indicates that 'mini-institutions' of 11--20 beds are also less prevalent in large urban centres.

It is useful, however, to look at the figures excluding Metropolitan Toronto. When this is done, bed ratios are higher for group homes (.36) and especially for homes of 3-20 beds (.80). In other words, Metro Toronto as a whole has fewer group homes and mini-institutions per capita than other large urban centres. The reason for this appears to be that the extremely low bed ratios in the five boroughs are not offset by the relatively high bed ratios in the City of Toronto (.68 for group homes and 1.39 for homes of 3-20 beds)

As a whole, the large cities outside of Metro Toronto appear to have a reasonable number of group homes, relative to the Provincial averages. However, some cities have very low bed ratios (e.g. Burlington and Mississauga) while others have relatively high ratios (e.g. Thunder Bay, Ottawa, Oshawa, Sudbury, Hamilton). Whether these variations can be fully or partially explained by zoning by-laws is discussed in the following section. It is possible that some cities, such as Thunder Bay, are servicing wide geographic areas and are the only locales with a service network appropriate for group homes. At the same time, it is possible other cities are able to send group home residents to other nearby cities and have not been compelled to establish their own. Other factors could also impact on the distribution, such as the presence of large institutions in the general proximity of the city. It is difficult to ascertain the relative importance of zoning by-laws versus these other factors.

At the same time, it should be kept in mind that all the above figures can only be used relative to one another as a tool to indicate variations in distribution. They cannot necessarily be used to indicate absolute shortages or surpluses in either specific cities or the Province as a whole.

(3) in the event that a group home is defined in the future as accommodating a maximum of 10 residents excluding staff, 224 existing homes (27%) would exceed the maximum and could become legal non-conforming uses in those municipalities which wish to adopt zoning by-laws respecting group homes. Of the 224 homes in excess of 10 residents, approximately 135 (60%) accommodate adult residents.

Such facilities could henceforth be seen as 'mini' institutions' rather than group homes and would likely be subject to institutional rather than residential zoning regulations. This may adversely affect the flexibility of location which these adult programs have experienced to date in some municipalities and rural areas.

(4) It is important to note that 27% of existing residential care facilities exceed 10 residents. This suggests a strong tendency to provision of care in mini-institutions as well as in a smaller family-style group home setting.

## THE CURRENT STATUS OF MUNICIPAL ZONING BY-LAWS AND MINISTERIAL ORDERS

#### RESTRICTED AREA (ZONING) BY-LAWS

Under section 35 of The Planning Act, municipalities may pass by-laws restricting the use of land and the manner in which buildings or structures are located on a property. The by-law and any required public works must conform to the municipality's development policies as contained in its official plan.

A zoning by-law only applies to development occurring after the passage of the by-law. Existing uses may continue in existence as long as they remain unchanged. However, any change in use or modification to an existing building or structure must conform to the zoning by-law, or must be sanctioned by the committee of adjustment.

Ontario Municipal Board Approval

All zoning-by laws and amendments are submitted to the Ontario Municipal Board for approval and do not come into force until approval has been granted.

If objections are received, the OMB almost always holds a public hearing, although it may dispense with a hearing if the objections are considered insufficient. Any zoning by-law approved by the OMB is deemed conclusively to be in conformity with the official plan then in effect in the municipality. This provision prevents any argument as to whether there is a conflict with the official plan.

If a municipal council refuses to pass an amendment to the zoning by-law or takes no action within a month of receiving an application, a citizen seeking an amendment may appeal to the Ontario Municipal Board. The Board will hold a hearing and either dismiss the appeal, or issue an order directing the council to pass an amendment.

Municipalities have the ability to permit or prevent the establishment of group homes through their zoning by-laws. Although group homes, as defined in this report, are acceptable in zones permitting institutional uses, rooming houses, lodging houses, university residences, etc., they are not permitted in single family residential area in most municipalities on the grounds that they do not fit within the zoning by-laws' definition of family. Most of the municipal zoning by-laws examined by the Working Group defined "family" as persons related by marriage or consanguinity and not more than five unrelated persons. (This is the essence of the existing by-laws of Windsor, Peterborough, Orillia, Belleville, Barrie Kingston, Toronto and Oshawa). Some municipalities have zoning by-laws that are even more restrictive. North York defines family as persons related by consanguinity, marriage, or legal adoption and non-paying guests and servants, a property owner living alone, except for two other persons, not related, and not more than three foster children under the care of the Children's Aid Society. The only provision the City of Stratford has for unrelated people within a single family residential area is "not more than two boarders". Woodstock allows three unrelated people living as a family and Scarborough allows three boarders.

The attached table (appendix 1) gives a ratio of group home beds per thousand population in Ontario cities of over 90,000. An attempt has been made to relate this distribution to existing zoning by-laws in these municipalities. Several observations are of interest:

- 1. Three of these municipalities, Burlington, East York and York, have no group homes at all. An examination of their by-laws reveals that Burlington's by-law allows three roomers only. An East York zoning by-law which has been before the O.M.B. for the past two years, would preclude group homes in the entire borough with family defined as related people only, with the exception of servants. The York zoning by-law contains a definition of family similar to that of East York.
- 2. As previously stated, the average ratio of group home beds to population for the 18 cities which we have listed is 0.30 per thousand, whereas the average for Ontario, as a whole, is 0.43 per thousand, which would indicate that a disproportionate number of group homes have been established outside of urban centres. (These figures are for group homes with 3 to 10 residents. C.A.S. facilities are excluded).
- 3. Toronto has a much higher ratio of beds per thousand population (0.68) than do the surrounding boroughs. As mentioned before, East York and York have no group homes at all. Etobicoke has 0.09 per thousand and Scarborough has 0.08. Toronto, Etobicoke and Scarborough have each developed a group homes policy in recent months. Toronto proposes to allow group homes with a maximum population of ten, excluding staff, in a residential area, so long as they are a specified distance from each other (Appendix 2). An Etobicoke staff report proposes to allow group homes with a maximum of eight residents, including staff, in all residential areas; also with distance requirements (Appendix 3). The Scarborough Planning Board has proposed that Council adopt a policy that would allow group homes in residential areas provided that they had no more than 6 residents, that they were 1,600 feet apart and that the group home would be neither a threat nor a liability to the immediate area's residents.
- 4. Toronto has the second highest ratio of group homes to population of the cities selected. Thunder Bay has the highest ratio with 1.23 per thousand and Sudbury is third with .61 per thousand.

Thunder Bay and Sudbury, not surprisingly, have the most permissive zoning by-laws of those examined by the Working Group. The new City of Thunder Bay has adopted the zoning by-laws of its constituent municipalities, (Fort William, Port Arthur, Neebing and McIntyre). Each defines "family" as one or more persons occupying a single housekeeping unit. The only significant difference between them is in the Fort William by-law which refers to "non-profit" housekeeping units. Presumably group homes could be established in any Thunder Bay residential area. The only exception would be the part of the city that used to be Fort William where group homes established on a profit-making basis would not be allowed. The Sudbury by-law has the same effect as that of Thunder Bay. It defines family as one or more persons

living together, whether or not related by blood or marriage, maintaining a common household, but not a boarding house. It is probably significant that the two municipalities with the highest ratio are in Northern Ontario. Both Thunder Bay and Sudbury are centres for many services and facilities serving a vast northern area.

Planning, including zoning, for the City of Sudbury is the responsibility of the Regional Municipality of Sudbury. The Region has adopted a positive policy regarding group homes. The problem was recognized and addressed in the Sudbury Regional Official Plan. The Plan adopted by Council included a policy to integrate special residential facilities within the community in existing residential neighbourhoods. However, the approval of the Minister of Housing of the Sudbury Official Plan was contingent on the deletion of this section, as well as some others. The approved Official Plan, therefore, makes no reference to group homes or special residential facilities.

#### Minister's Orders

Under section 32 of The Planning Act, the Minister of Housing may, by order, exercise any of the zoning powers of a municipal council. No approval of the OMB is required, but where there is an official plan in effect, the Minister's order must not conflict with it.

Minister's orders are placed:

- (1) in unorganized territory;
- (2) where no or inadequate local zoning exists; and
- (3) to protect Provincial interests, e.g., Pickering Airport, Parkway Belt.

The Ministry of Housing generally uses a definition of family in Minister's orders that includes 5 unrelated individuals and would, therefore, prevent group homes of more than 5 people.

### PROVINCIAL ZONING OPTIONS FOR ENCOURAGING THE ESTABLISHMENT OF GROUP HOMES

Working from the position that it is the clear desire of the Provincial Government to promote the orderly development of group homes to accommodate the socially, physically or mentally disadvantaged and isolated, a number of choices appear to be open to the Government. The Working Group has attempted to list as many of these options as possible with an outline of the ramifications of each.

1. Status Quo - let agencies and individuals a) take their chances with obtaining municipal approval of zoning by-law amendments and b) fight their own case before the 0.M.B. where objections arise or the municipality refuses consideration.

Implications: worsening of the existing situation and a serious threat to the provincial policy of de-institutionalization.

2. Background Support - provide agencies and individuals with legal/technical/financial assistance on a low profile basis in their efforts to establish group homes via the process outlined in No. 1 above.

Implications: very ad hoc and with the possibility of uneven effectiveness; also the province could be accused of being somewhat devious in implementing policy.

3. Policy Support from a Distance - send a letter to municipalities pointing out their responsibilities to provide for social service care in a community setting and asking that they not prohibit group homes by zoning; send a similar letter to the Ontario Municipal Board outlining provincial policy on group homes in relation to municipal zoning (the Board has a mandate to follow provincial policy where it exists).

Implications: uneven effect as many municipalities may take no action to amend their restrictive zoning; a public stance by the Government on this issue would also be required.

4. Policy Support with High Provincial Profile - policy letters to municipalities and the O.M.B., as in No. 3 above, plus planning guidelines outlining a model zoning by-law on group homes. The model by-law could also be directed through the municipal associations and promoted by the Community Planning Advisory Branch of Housing and the Minister of Community and Social Services.

Implications: the model by-law would need to form a part of a comprehensive Government effort to encourage municipal policy, as reflected in local zoning, to facilitate the provincial policy/program on de-institutionalization. This option would require a clear statement of provincial policy communicated in a comprehensive public relations package to municipalities and perhaps financial incentives and legislation detailing provincial/municipal responsibilities. As a result, it would require a strong commitment by the Government to provide provincial regulations, standards of operation, plus an agreement on a model zoning by-law for group homes.

5. Quebec Approach - put in force legislation stating that municipalities cannot use zoning to prevent group homes, as in the recent Quebec Health and Social Services Act.

Implications: would not solve the problem of concentration of group homes, nor recognize the responsibilities of group homes to the community in which they exist and, therefore, would not encourage municipal co-operation.

6. Blanket Approach - amend section 35 (1) 4 of The Planning Act to prevent municipalities from using the "character and use" phrase to exclude group homes from residential areas (suggested by the Report of The Planning Act Review Committee and the CCSD submission dated March 8, 1978).

Implications: would seriously interfere with a municipality's ability to a) protect and stabilize residential neighbourhoods; b) establish special zones for senior citizen housing, adult only buildings, etc., and c) restrict occupancy in resort areas to seasonal use.

7. The Ultimate Solution - impose Minister's orders under section 32 of The Planning Act to supersede every municipal zoning by-law that prevents or restricts group homes.

Implications: the implications of this action are as obvious as they are unattractive.

#### RECOMMENDATION

#### THAT:

- (i) A LETTER BE SENT TO MUNICIPALITIES POINTING OUT THEIR RESPONSIBILITIES TO PROVIDE FOR SOCIAL SERVICE CARE IN A COMMUNITY SETTING AND ASKING THAT THEY NOT PROHIBIT GROUP HOMES BY ZONING.
- (ii) A SIMILAR LETTER BE SENT TO THE ONTARIO MUNICIPAL BOARD OUTLINING PROVINCIAL POLICY ON GROUP HOMES IN RELATION TO MUNICIPAL ZONING.
- (iii) PLANNING GUIDELINES AND THE MODEL BY-LAW
  BE DIRECTED TO MUNICIPALITIES THROUGH THE
  MUNICIPAL ASSOCIATIONS AND PROMOTED BY THE
  COMMUNITY PLANNING ADVISORY BRANCH OF HOUSING
  AND THE MINISTRY OF COMMUNITY AND SOCIAL
  SERVICES.

#### MODEL BY-LAW

Some of the options relative to zoning by-laws have previously been noted.

In the co-operative spirit which has been recommended the Working Group believes that municipalities would be well served in developing their own by-laws to govern the development and operation of group homes. To assist in this endeavour a by-law has been drafted which should be effective in protecting the home owner, the group home operator, the group home resident and the municipality. The working of the by-law has been designed with options which may be selected to meet the specific desires of a municipality and also to assist those municipalities that do not have sophisticated planning mechanisms.

The model by-law should use the definition previously recommended and provide that group homes may locate in any dwelling in a residential zone. In addition, the by-law should provide that a group home cannot locate closer than a specified distance to another group home facility. This spacing requirement would alleviate municipal and community fears concerning concentration of group homes and over-taxing of social/educational facilities. The requirement could be expressed in urban by-laws as a sliding scale of 600 to 1000 feet depending upon the number of residents (Toronto) or a standard distance in suburban or rural areas (e.g. Scarborough is proposing 1600 feet).

Such a model by-law would consist of the following:-

- A. "A group home is a single housekeeping unit in a residential dwelling in which three to ten unrelated residents\* live as a family under responsible supervision consistent with the requirements of its resident. The hand is literated as approximated under Provincial Statute in compliance with municipal bylaws."
  - \*"Residents" excludes staff or receiving family.
- B. Any residential dwelling may be used for a group home provided the following conditions are met:
  - (i) there is no other group home or similar facility within a distance from the building computed according to the following table; and depending on the approved capacity, excluding staff, in either facility

Approved	capacity		distance facilities
-			
_			
_		_	

OR (ii) "A group home must be spaced at least the following distance from another similar facility, located in any residential area, depending on the number of residents, exclusive of staff, in either the locating facility or the located facility, which ever is the greater distance, as follows:

6 - licensed or approved beds x feet or metres 7 " " " " " " "

8 " " " " " "

(iii) "A group home must be spaced at least x feet/ metres from another similar facility located in any residential area".

#### Minister's (of Housing) Zoning Orders

It is considered unlikely that many group home operators would want to locate in areas covered by Minister's Orders, but to be consistent with Government policy, the Orders should be amended along the lines of the model by-law. (This would also apply to the regulations under The Niagara Escarpment Planning and Development Act, O.R. 453/73 and under The Parkway Planning and Development Act).

#### RECOMMENDATION:

OR

THAT MUNICIPALITIES BE ENCOURAGED TO DEVELOP BY-LAWS GOVERNING GROUP HOMES.

#### DECISION RE HUMAN SERVICES POLICIES IN OFFICIAL PLANS

An official plan implemented by zoning by-laws. Section 19 of the Planning Act requires all by-laws of a municipality to conform to its official plan. Apart from this, the official plan has no legislative effect and becomes important to the property owner only when he applies for an amendment to the zoning by-law. Where an official plan makes provision for group homes and sets out the criteria for re-zoning, an application for re-zoning to establish a group home pursuant to the official plan would be relatively simple. If the official plan indicated that group homes should not be allowed in the area, the property owner would be required to apply for an amendment to the official plan as well as an amendment to the zoning by-law. Where the official plan made no reference to group homes, either directly or by implication, the Ontario Municipal Board would have to decide if the by-law conforms to the plan.

Several regional and area municipalities (e.g. Mississauga, Halton, Sudbury, Caledon) have included a policy statement in their draft official plans supportive of the establishment of group homes within their boundaries. As a result of the recent Government decision that an official plan is not an appropriate vehicle for pursuing human services policies, the Ministry of Housing has advised these municipalities that their policies encouraging provision of group homes are to be deleted from their official plans.

#### RECOMMENDATION:

THAT THE GOVERNMENT CLARIFY THAT A POLICY OF ENCOURAGING MUNICIPALITIES TO ACCEPT RESPONSIBILITY FOR THE PROVISION OF GROUP HOMES IMPLIES ENABLING MUNICIPALITIES TO EXPRESS IN THEIR OFFICIAL PLANS THAT GROUP HOMES ARE ACCEPTABLE AND PERMITTED LAND USES IN RESIDENTIAL AREAS.

#### CURRENT PROVINCIAL AND MUNICIPAL CONTROL STANDARDS

#### Licensing

Licenses are granted to group home operators under only 5 of the 14 group home programs. Compliance with a Provincial approval procedure is required in an additional 8 programs. The only program which is not subject to any direct provincial control is the Children's Aid Society homes operated under the Child Welfare Act. These homes are established and operated at the discretion of the local Children's Aid Society, which receives funding from the province to cover all activities including residential care.

#### Compliance with Local By-Laws and Regulations

The majority of group home operators are required to meet local fire, health, zoning and building by-laws as a condition of provincial approval and/or funding. The notable exceptions are homes under the Child Welfare Act, Children's Mental Health Centres, and Detention Homes under the Provincial Courts Act. However, these will also be required to comply with municipal by-laws and regulations under the interim "Children's Legislative Package."

#### Standards and Supervision

Under 10 of the 14 provincially approved group home programs, the operators are expected to comply with provincially established standards of operation, which are set out in some cases in legislation, in others in manuals or written into the contract. These standards may range from minimal guidance to detailed and precisely defined procedures.

Under the remaining four programs (Approved Homes, Satellite Homes for Aged, C.A.S. Homes, Juvenile Detention Centres) operators are not required to meet any specific provincial standards.

It should be noted that the Children's Services Division is developing standards and licensing procedures for all children's residential care facilities.

With respect to supervision, it would appear that all programs are subject to monitoring and/or active supervision. In some cases this is provided directly by the relevant provincial ministry; in others, it may be provided by the institution, agency or association with which the group home is affiliated.

#### GROUP HOME REGISTRATION

#### Registry of Group Homes

A central registry of all group homes within the Province as well as a registry for each municipality will be required to facilitate the initial licensing or approval of group homes and the subsequent need to ensure that their operations continue to meet the standards and guidelines as established.

The Children's Services Division of the Ministry of Community and Social Services is currently developing a computerized system to maintain an inventory of all residential care facilities for children in Ontario. Upon completion of this inventory, a directory is to be published that will identify each of the residences and the characteristics of the residence that would be of assistance in placing children in the most appropriate setting.

#### Central Registry

. The Children's Services Residential Inventory File could be used for two main functions:

- (a) as a central registry for established group homes meeting the required standards, and
- (b) as a vehicle to 'track' all applications for the establishment of new homes through to the disposition of the applications.

#### Municipal Registries

To assist the municipalities in providing for group home care, the central file could:

- (a) provide a listing of all residential care facilities within the jurisdiction of each municipality with the act under which it is licensed or approved and also its source of funding, and
- (b) maintain the file in an updated status.

#### Other Considerations

Community and Social Services through the Children's Division could provide an inexpensive service to other Ministries which maintain residential services such as Health and Correctional Services. If such a Government-wide residential inventory file were to be maintained, it would be invaluable to future planning and research activities.

#### RECOMMENDATION:

#### THAT:

- (A) THE CHILDREN'S SERVICES DIVISION RESIDENTIAL SERVICES FILE BE USED TO MAINTAIN THE REGISTRY OF ALL GROUP HOMES, AND
- (B) THE FILE BE CONSIDERED TO BECOME THE CENTRAL SOURCE FOR ALL RESIDENTIAL RESOURCES IN THE ONTARIO GOVERNMENT.

#### RELATED COMMUNITY SERVICES

In the establishment of a group home, the related community support services required to meet the program needs of the residents must be available in that community.

The most obvious of these services is the provision of education to group home residents of school age. Children from group homes often require some form of special education. At the present time, special education programs may be established under permissive legislation in The Education Act, 1974. Although all school boards in the Province do provide some special services, the extent varies significantly from one board to another depending on size, teacher expertise, accommodation, financial resources and the availability of psychological and social support services either employed by the board or on contract from community agencies.

In general, school boards acknowledge the right of these children to an appropriate educational program. They have, however, registered some concerns that require attention and a greater degree of co-operation between service providers and the schools must be ensured. Quite often, school officials have been the last to hear about the establishment of a new group home, and children appear at a school with little or nor prior contact. Serious problems occur for school boards where, because of local zoning by-laws, a number of homes are concentrated in one part of a county or region in which special classes and services may already be over-crowded or non-existent. As much lead-time as possible is required. For example, in order to open a new special class in September 1978, it should have been identified in the board's budget process probably as early as the previous November.

Information that would assist in planning suitable education programs for these children is sometimes slow to come and often "superficial". In some cases, no sooner is a child settled in school and progressing when he is moved. It is extremely difficult to establish, maintain and modify special programs with fluctuating enrolments.

In addition, a close working relationship must be encouraged and developed between the school and the group home or agency. It is essential that staff from a group home be identified in advance and accessible if a crisis occurs during the school day.

Requirements for other support services such as recreation, transportation, medical, hospital, social and psychiatric services and community workers are primarily dependent on the programs outlined for residents of the group homes. As indicated in an earlier Cabinet Committee Submission of March 30, 1978, generally speaking, the large urban centres are best able to accommodate those particular needs which contribute to the successful integration of the group home resident in the community. Since these related services are primarily a program requirement they have not been dealt with in detail in this paper.

#### Cost of Education

The Regulations: General Legislative Grants, 1978, make provision for special funding for the education of children from a variety of Government-approved care and treatment facilities. This is provided in two ways:

 Where children, who are resident in designated facilities, are able to attend schools in the community each day, the School Board is reimbursed for the cost of education for those students who are registered as non-resident pupils. (Appendix attached).

This applies to students who are wards or in the care of a Children's Aid Society and to wards of Training Schools. It also applies to children who are resident in facilities designated under the following Acts:

- a. The Children's Boarding Homes Act
- b. The Children's Institutions Act
- c. The Charitable Institutions Act
- d. The Developmental Services Act
- e. The Homes for Retarded Persons Act
- f. The Provincial Courts Act
- g. The Homes for Special Care Act
- h. The Mental Hospitals Act
- i. The Ministry of Correctional Services Act
- j. Psychiatric Facilities designated under The Mental Health Act
- For children who, for a number of reasons, are unable to attend local schools, School Boards are being encouraged under permissive legislation to place teachers in approved facilities to provide special education programs. (Appendix attached).

Where agreements have been negotiated and approved by the Minister, the Province reimburses the School Boards for the cost of the teachers' salaries, plus an allowance for administrative and supervisory services and for the purchase of instructional supplies.

#### Implications:

As the Government implements its plans to phase down Training Schools and other large institutions, it is imperative that Ministry of Education, General Legislative Grants be adjusted accordingly. This is particularly significant in view of current financial constraints. Without effective planning on an interministerial basis, one Ministry might be placed in an untenable position.

An accurate indication of the number of children who will be returning to alternate community settings is required well in advance of the actual placement so that funds can be requested in the Ministry of Education Estimates process.

An an alternative, as funds become available as a result of closing or the phasing down of Training Schools, an appropriate amount should be transferred to the Ministry of Education for allocation through General Legislative Grants to School Boards.

#### RECOMMENDATIONS:

- 1. IT IS RECOMMENDED THAT (i) EVIDENCE OF NOTIFICATION TO SCHOOL BOARDS AND (ii) DOCUMENTATION ON AVAILABILITY OF RELEVANT EDUCATIONAL PROGRAMS AND SERVICES BE A DEFINITE REQUIREMENT IN THE LICENSING PROCEDURES FOR ALL GROUP HOMES.
- 2. IT IS RECOMMENDED THAT WHEN STANDARDS AND PROCEDURES
  ARE EEING DEVELOPED FOR CHILDREN'S RESIDENTIAL SERVICES,
  THE CHILDREN'S SERVICES DIVISION INCLUDE REFERENCE TO
  THE FOLLOWING ITEMS TO ENSURE THAT:
  - (i) CASE WORKERS AND PLACEMENT OFFICERS CONSIDER THE EDUCATIONAL NEEDS OF THE CHILD IN DETERMINING THE BEST POSSIBLE PLACEMENT IN A COMMUNITY;
  - (ii) CONSULTATION TAKES PLACE BETWEEN PLACEMENT OFFICERS AND SCHOOL OFFICIALS WELL IN ADVANCE OF PLACING A CHILD IN A COMMUNITY SETTING;
  - (iii) APPROPRIATE INFORMATION IS MADE AVAILABLE TO SCHOOL OFFICIALS TO ASSIST IN DEVELOPING A SUITABLE EDUCATIONAL PROGRAM FOR EACH CHILD; AND
    - (iv) ADEQUATE CO-OPERATIVE ARRANGEMENTS ARE MADE REGARDING THE AVAILABILITY OF STAFF FROM THE GROUP HOME IF A CRISIS OCCURS IN THE SCHOOL.

#### CONTROL MECHANISMS

#### Licensing and Standards

The licensing or approval of group homes and the standards under which they operate must be developed in a climate of closer provincial/municipal co-operation. This would be seen as the development by the two levels of Government of compatible licensing or approval requirements.

As a result of the provincial commitment to non-institutional community living, this co-operation would be essential to ensure that care in a community setting is available.

Because of this thrust to de-institutionalization, a greater number of applicants for the establishing of group homes would come under the jurisdiction of provincial legislation which generally makes provision for standards, inspection and supervision. Such homes, prior to licensing or approval under provincial legislation, would also be subject to requirements imposed by municipalities.

It is recommended that Cabinet adopt the following as procedural guidelines for all group home programs which are licensed and/or approved for funding under provincial legislation:

- A. THAT AS A CONDITION OF LICENSING OR APPROVAL FOR FUNDING THE RELEVANT PROVINCIAL MINISTRY REQUIRE THE APPLICANT TO:-
  - (i) NOTIFY MUNICIPALITY OF INTENT TO ESTABLISH A GROUP HOME SUBJECT TO COMPLIANCE WITH PROVINCIAL AND MUNICIPAL REQUIREMENTS:
  - (ii) COMPLY WITH MUNICIPAL ZONING BY-LAWS;
  - (iii) DEFINE THEIR PROGRAM AND DEMONSTRATE THE NEED FOR THE SERVICE TO BE PROVIDED IN THE SPECIFIC LOCATION WITHIN THE MUNICIPALITY;
    - (iv) DEMONSTRATE A KNOWLEDGE OF THE COMMUNITY AND ITS RESOURCES, TO ENSURE THAT THE NEEDS OF THEIR CLIENTS CAN BE MET WITHIN A CLIMATE OF COMMUNITY ACCEPTANCE AND CONSISTENT WITH THE OBJECTIVES OF THEIR PROGRAM REQUIREMENTS; AND
    - (v) DEMONSTRATE SUITABILITY OF THE PROPOSED FACILITY AS REQUIRED BY PROVINCIAL/MUNICIPAL LEGISLATION AS TO ITS CONSTRUCTION AND COMPLIANCE WITH LOCAL HEALTH, SAFETY AND FIRE REGULATIONS.
- B. THAT FOLLOWING THE ESTABLISHMENT OF A GROUP HOME AND AS A CONDITION FOR CONTINUED APPROVAL OF FUNDING AND/OR LICENSING, THE RELEVANT PROVINCIAL MINISTRY TAKE THE FOLLOWING MEASURES ANNUALLY TO ENSURE THAT THE GROUP HOME IS BEING MAINTAINED AND OPERATED IN ACCORDANCE WITH PROVINCIAL AND/OR MUNICIPAL LEGISLATION:
  - (i) REVIEW MANAGEMENT AND OPERATION OF THE GROUP HOME TO ENSURE THAT PRESCRIBED PROGRAMS ARE BEING CARRIED OUT AND THE STAFF/RESIDENT RATIO AND SUPERVISION ARE IN ACCORDANCE WITH PROGRAM REQUIREMENTS.
  - (ii) REQUIRE OPERATOR TO DEMONSTRATE CONTINUED COMPLIANCE WITH LOCAL HEALTH, FIRE, SAFETY AND BUILDING REGULATIONS.

#### PUBLIC AWARENESS COMMUNICATIONS PROGRAM

Discussion with involved Ministries in general and Program Managers in particular indicates that public concerns over group homes are wide and varied, although there is a generally favorable consensus from program to program with respect to the real concerns and established prejudices.

Individual Program Managers indicate that they consider themselves able in logical discussion to respond adequately to these concerns, and the program acceptance by the media is a positive indication of this, but they find themselves in more difficult circumstances when dealing with one or more individuals in a locality who can persuade the local municipality to refuse to accept a group home into the community.

The four specific groups that need to be considered in a public awareness program are:

- (1)the general public;
- (2) municipalities;
- socially conscious citizens groups and agencies; (3)
- the media. (4)

It is suggested that each one presents a different problem and that while a great measure of success could be reasonably expected with respect to groups (2), (3) and (4), total success will never be possible with respect to group (1). Even with 90% of the public in support, it is the active and vocal 10% in a particular locality that tends to block the development and so mobilizes opposition to either a present program or the establishment of a new one that it ceases to be a viable proposition.

It is recommended that prior to the establishment of a public awareness program, the Government should consider the  $\ensuremath{\mathsf{E}}$ main concerns expressed by those in opposition, and also the ability of the Provincial Government to answer concerns honestly, and straightforwardly; and with the confidence that there are not, indeed, through these actions, unnecessary hazards or situations detrimental to the public at large.

While most managers feel that their programs generally do a very good job, they themselves express concerns that the staff of the programs are not always adequate and may not be capable of giving the supervision that is necessary, and it may be that in some instances additional resources would be required before a program manager could speak with the necessary confidence. It would seem to be the responsibility of managers of the programs to be able to maintain public confidence in their established programs if they are to speak with reasonable assurance to a group of concernd citizens with respect to the proposed establishment of a new program.

While zoning has been the weapon most used to prevent the development of residential facilities, there have been numerous instances of concern with respect to established programs. Essentially the arguments put forward against the establishment of a group home have two general origins:

- (1) incorrect zoning;(2) reduction of the "quality of the neighbourhood".

#### (1) Zoning

In view of the fact that many community residential programs are newer than the zoning by-laws that regulate them, it is not unexpected that there will be occasions when a home is either unquestionably incorrectly zoned, or when a particular interpretation of a by-law can be used as a preventive measure by people whose main concern is (2).

#### (2) "Quality of the Neighbourhood"

Concerns expressed and opposition to group homes centre around:

- (a) forecasts of misbehaviour by residents;
- (b) unreasonable prejudice against those who are different, often based on ignorance of the proposed program;
- (c) fear that the property values in the neighbourhood will decrease because of property neglect; rowdyism, excessive visiting and parking of cars on congested streets, prejudice of future wouldbe purchasers, and clustering of residential care facilities in particular neighbourhoods;
- (d) lack of supervision and inadequacy of programs;
- (e) lack of standards and inspections;
- (f) apprehension with respect to something new without adequate information to give assurance that the apprehension is unfounded.

Unfortunately no program can give 100% assurance that the above points, except (b), are not cause for concern. Program managers believe that adequate standards, adequate legislation, and adequate resources are essential before one can say confidently to the public that possible instances of concern have been minimized.

As a follow-up to this, it is essential that before any program of public awareness is initiated a number of areas of major concern should be considered by the government.

#### (1) Insurance

Community residences in general find it difficult to get insurance against claims of neglect which may follow willful damage to neighbourhood property, or indeed the residence itself. Some operators claim that as agents of the government, carrying out government responsibilities under contract, there should be government insurance to cover this concern. The fact that it is not available inhibits the development of new facilities and is found to be a source of friction for the present facilities .

#### (2) Staff Training Program

There is no government staff training program centering on the need to develop, among program managers and their staff, techniques of community communication and interaction. It is suggested that this area should be given careful consideration not only as a possible facet of a public awareness program, but also as a means of supporting programs already in existence when possible explosive situations arise.

## (3) Registration-Licensing-Standards

The recommendations of this committee, on page 24, should be given due consideration and a program of positive action be undertaken so as to ensure that public concerns can be allayed to a great extent by reference to the availability of controls.

### General Direction of Public Awareness Program

It is recommended that a concerted program, developed from the resources available to the Communications Branch of each Ministry, be coordinated by one specified Communications Branch in conjunction with the Provincial/Municipal Liaison Committee which should be approached to assist in the development of a public awareness program. Printed materials and other communication resources already available in Ministries should be utilized and each Ministry involved should be required not only to give its utmost cooperation, but also appropriate and adequate guidance with respect both to its own proposed plans and to areas of concern that have been expressed, with adequate rebuttal of such expressed concerns.

The material should be made readily available to the media in all localities with special reference to added guidance being given in developmental areas. Special agencies in the community which are concerned with this problem should be given information and encouraged to coordinate their efforts with the centrally directed public awareness program.

Individual municipalities should have information materials supplied in conjunction with the public awareness program and with the possible model by-law or other legislative action, as indicated on page 24.

In the present climate of public opinion it would seem essential that the Provincial Government give adequate support to the municipalities in the development of acceptance of residential care facilities, and direction with respect to a model by-law to such a degree that support of the program becomes a positive political attribute at the local level, and preferably one which does not become an issue that can gain political advantage by promising stiff resistance to the development of residential care facilities.

The public awareness program then is more than simply taking out full page advertisements in local newspapersit is only a part of a major tactical operation that takes into account all aspects of the needs and is prepared to carry out to the fullest every individual, necessary facet of a total program.

It is recommended that a public awareness program be initiated immediately to support the thrust of this report and to convey the spirit of Provincial-Municipal co-operation and collaboration.

## SUMMARY OF RECOMMENDATIONS

1. THAT THE DEFINITION OF A GROUP HOME BE:

A GROUP HOME IS A SINGLE HOUSEKEEPING UNIT
IN A RESIDENTIAL DWELLING IN WHICH THREE TO
TEN UNRELATED RESIDENTS\* LIVE AS A FAMILY
UNDER RESPONSIBLE SUPERVISION, CONSISTENT
WITH THE REQUIREMENTS OF ITS RESIDENTS.
THE HOME IS LICENSED OR APPROVED UNDER
PROVINCIAL STATUTE IN COMPLIANCE WITH MUNICIPAL
BY-LAWS.

- \*" RESIDENTS" EXCLUDES STAFF OR RECEIVING FAMILY.
- 2. THAT THE TERM GROUP HOME BE USED IN CONJUNCTION WITH THE NEW DEFINITION.
- 3. THAT:
- (i) A LETTER BE SENT TO MUNICIPALITIES POINTING OUT THEIR RESPONSIBILITIES TO PROVIDE FOR SOCIAL SERVICE CARE IN A COMMUNITY SETTING AND ASKING THAT THEY NOT PROHIBIT GROUP HOMES BY ZONING.
- (ii) A SIMILAR LETTER BE SENT TO THE ONTARIO MUNICIPAL BOARD OUTLINING PROVINCIAL POLICY ON GROUP HOMES IN RELATION TO MUNICIPAL ZONING.
- (iii) PLANNING GUIDELINES AND THE MODEL BY-LAW
  BE DIRECTED TO MUNICIPALITIES THROUGH THE
  MUNICIPAL ASSOCIATIONS AND PROMOTED BY THE
  COMMUNITY PLANNING ADVISORY BRANCH OF HOUSING
  AND THE MINISTRY OF COMMUNITY AND SOCIAL
  SERVICES.
- 4. THAT MUNICIPALITIES BE ENCOURAGED TO DEVELOP BY-LAWS GOVERNING GROUP HOMES.
- THAT THE GOVERNMENT REVIEW THIS SITUATION TO CLARIFY THAT A POLICY OF ENCOURAGING MUNICIPALITIES TO ACCEPT RESPONSIBILITY FOR THE PROVISION OF GROUP HOMES IMPLIES ENABLING MUNICIPALITIES TO BE ABLE TO EXPRESS IN THEIR OFFICIAL PLANS THAT GROUP HOMES ARE ACCEPTABLE AND PERMITTED LAND USES IN RESIDENTIAL AREAS.
- 6. THAT:
- (A) THE CHILDREN'S SERVICES DIVISION RESIDENTIAL SERVICES FILE BE USED TO MAINTAIN THE REGISTRY OF ALL GROUP HOMES, AND
- (B) THE FILE BE CONSIDERED TO BECOME THE CENTRAL SOURCE FOR ALL RESIDENTIAL RESOURCES IN THE ONTARIO GOVERNMENT.

#### 7. THAT:

- (i) EVIDENCE OF NOTIFICATION TO SCHOOL BOARDS
- (ii) DOCUMENTATION ON AVAILABILITY OF RELEVANT EDUCATIONAL PROGRAMS AND SERVICES BE A DEFINITE REQUIREMENT IN THE LICENSING PROCEDURES FOR ALL GROUP HOMES.
- THAT: WHEN STANDARDS AND PROCEDURES ARE BEING DEVELOPED FOR CHILDREN'S RESIDENTIAL SERVICES, THE CHILDREN'S SERVICES DIVISION INCLUDE REFERENCE TO THE FOLLOWING ITEMS TO ENSURE THAT:
  - (i) CASE WORKERS AND PLACEMENT OFFICERS CONSIDER THE EDUCATIONAL NEEDS OF THE CHILD IN DETERMINING THE BEST POSSIBLE PLACEMENT IN A COMMUNITY;
  - (ii) CONSULTATION TAKES PLACE BETWEEN PLACEMENT
     OFFICERS AND SCHOOL OFFICIALS WELL IN
     ADVANCE OF PLACING A CHILD IN A COMMUNITY
     SETTING;
  - (iii) APPROPRIATE INFORMATION IS MADE AVAILABLE
    TO SCHOOL OFFICIALS TO ASSIST IN DEVELOPING
    A SUITABLE EDUCATIONAL PROGRAM FOR EACH
    CHILD; AND
    - (iv) ADEQUATE CO-OPERATIVE ARRANGEMENTS ARE MADE REGARDING THE AVAILABILITY OF STAFF FROM THE GROUP HOME IF A CRISIS OCCURS IN THE SCHOOL.
- 8. THAT: AS A CONDITION OF LICENSING OR APPROVAL FOR FUNDING THE RELEVANT PROVINCIAL MINISTRY REQUIRE THE APPLICANT TO:-
  - (i) NOTIFY MUNICIPALITY OF INTENT TO ESTABLISH A GROUP HOME SUBJECT TO COMPLIANCE WITH PROVINCIAL AND MUNICIPAL REQUIREMENTS;
  - (i1) COMPLY WITH MUNICIPAL ZONING BY-LAWS
  - (iii) DEFINE THEIR PROGRAM AND DEMONSTRATE THE NEED FOR THE SERVICE TO BE PROVIDED IN THE SPECIFIC LOCATION WITHIN THE MUNICIPALITY;
    - (iv) DEMONSTRATE A KNOWLEDGE OF THE COMMUNITY
      AND ITS RESOURCES, TO ENSURE THAT THE NEEDS
      OF THEIR CLIENTS CAN BE MET WITHIN A CLIMATE
      OF COMMUNITY ACCEPTANCE AND CONSISTENT
      WITH THE OBJECTIVES OF THEIR PROGRAM REQUIREMENTS; AND
      - (v) DEMONSTRATE SUITABILITY OF THE PROPOSED FACILITY AS REQUIRED BY PROVINCIAL/MUNICIPAL LEGISLATION AS TO ITS CONSTRUCTION AND COMPLIANCE WITH LOCAL HEALTH, SAFETY AND FIRE REGULATIONS.

- THAT: FOLLOWING THE ESTABLISHMENT OF A GROUP HOME
  AND AS A CONDITION FOR CONTINUED APPROVAL OF
  FUNDING AND/OR LICENSING, THE RELEVANT
  PROVINCIAL MINISTRY TAKE THE FOLLOWING MEASURES
  ANNUALLY TO ENSURE THAT THE GROUP HOME IS BEING
  MAINTAINED AND OPERATED IN ACCORDANCE WITH
  PROVINCIAL AND/OR MUNICIPAL LEGISLATION:
  - (i) REVIEW MANAGEMENT AND OPERATION OF THE GROUP HOME TO ENSURE THAT PRESCRIBED PROGRAMS ARE BEING CARRIED OUT AND THE STAFF/RESIDENT RATIO AND SUPERVISION ARE IN ACCORDANCE WITH PROGRAM REQUIREMENTS.
  - (ii) REQUIRE OPERATOR TO DEMONSTRATE CONTINUED COMPLIANCE WITH LOCAL HEALTH, FIRE, SAFETY AND BUILDING REGULATIONS.
- 9. THAT: A PUBLIC AWARENESS PROGRAM BE INITIATED IMMEDIATELY TO SUPPORT THE THRUST OF THIS REPORT AND CONVEY THE SPIRIT OF PROVINCIAL-MUNICIPAL CO-OPERATION AND COLLABORATION.
